WHENAS, window film, when professionally installed on existing windows, aids in significant energy savings and the reduction of carbon emissions; and

WHENAS, window film and the associated cost savings can have a significant impact during this period of high energy costs, supporting consumers and their ability to pay for utility services; and

WHENAS, window film helps to screen out dangerous UV rays to help protect skin from cancer and eyes from glare; and

WHENAS, window film provides job opportunities for people to serve their communities; and

WHENAS, nearly 80 percent of all window film in the world is manufactured in the United States by leading companies and offers significant economic benefits at all levels; and

WHENAS, window film helps both consumers and businesses to save money on their energy bills and reduce peak demand for electricity when utilities are most challenged.

NOW, THEREFORE, as Governor of the State of North Dakota, I do hereby proclaim April 30, 2022, WINDOW FILM DAY in the State of North Dakota.
